height adjustment, stationary

Cat.-No.: MA-3508

Special version for obese corpses with sink and centre pedestal

Work area with negative (1 drain at centre) embossment and special drain channels

Max. load: 350kgs

Type: 3508

MA-3508 Special autopsy table for obese corpses

Description

Special dissection table for obese corpses with center column in high and sturdy quality.

Special work area provided with sound absorbing material. Work surface with a negative (a central outlet) diagonal embossment with special drain channels for rapid drainage of large volumes of body fluids.

Sink 700 x 500 x 350(D)mm) with overflow valve and short neck inflow-tap. warm- / cold water knee operated valve. 2 flexible showers with 3m hose, which maybe fixed in the centre of the organ grossing table (optional accessory) for optimum wash down purposes over the whole length of the body.

The pedestal contains: 2 revision doors for easy access in case of service, the extraction and sanitary installations and of a unique, sturdy st. st. frame for optimum stability.

The detachable strainer in the worktop is present to catch coarse impurities. With security locks and an overflow to protect tissue loss and constipation.

Completely encircling the edge profile with internal and external rounded corners for easy care and injury protection. Inner surfaces of the upper part complete with sound dampening coating. Completely waterproof lining.

Features

The waste system positioned below the work area includes a removable residue strainer (130 x 260 x 135mm deep), security locks and an overflow to avoid clogging.

MA-3508 with special shaped worktop and integrated covered drain channels plus sliding organ grossing table with instrument tray

MA-3508 Sink
