

Product: Air Supply Unit 2200 for all autopsy tables with integrated daylight source

Cat.-No.: MA-2017

Air supply unit for all autopsy tables with integrated daylight source

Adjustable air regulating slots at both sides

Type: 2017

Concept, Description and Functions

Air supply unit for all autopsy tables with adjustable downdraft air stream from 0 – 8°. Housing installed directly at ceiling or detached from ceiling with 2x air supply connection 200 mm AD up.

Integrated LED-illumination-fields!

The air supplied by the central air condition system is absorbed by the air supply unit and by means of a laminar displacement flow through the outlet slots and leads to the autopsy table. A stable downdraft air stream is created.

Technical Details

Housing with wired 3x LED
Area lighting, 4x turnbuckle
Stainless steel M10, 4x studding stainless steel M10/ 1000 long

Electric interface at junction box at top of the elements. 2x air supply connection via flange each D200mm at the top.
At the bottom three LED surface panels with daylight-similar working area illumination with 600 x 600 mm each.

Technical Data

Air volume:	appr. 750m ³ /h (should be below the extracted area!)
Duct stud on top of unit:	200mm AD
Effective range:	appr. 3000mm
Pressure loss:	appr. 40 Pa
Connected load:	150 Watt
Color of light:	6000k
Quantity of light:	11400 Lumen
Weight:	appr. 95 kgs
Material:	stainless steel 1.4301/double polished
Dimensions:	2200(L) x 900(W) x 300(H)mm

Country of Origin

Manufactured by MEDIS MT GmbH in Germany acc. to EN and German norms and the health & safety regulations of the EC and Germany.
